

# Power and alarming security for smart watches on display.

Full product experience. Best in class aesthetics.

- › An unobtrusive wearable security solution that allows customers to fully engage with the merchandise
- › The Zips Power based system powers and secures smart watches from leading OEMs
- › Allows consumers to try on a smart watch and explore all the functions without store staff assistance
- › Part of InVue's OneKEY ecosystem™

**FEATURES AND BENEFITS**

- 1 Provides a true 'owner's experience' by allowing customers to wear the watch and explore all features and functionality
- 2 Delivers a hands-on product experience without store staff assistance
- 3 Magnetic docking for a clean display, ready for the next consumer interaction
- 4 Strong magnetic force ensures contact charging when not in use
- 5 Plunger switch directly detects smart watch body, while 'link' sensor secures the watch band
- 6 Works with Zips Power Alarm Unit

**FEATURES AND BENEFITS (continued)**

- 1 Security doesn't interfere with the back of the watch, allowing the user to experience the heart rate monitor and other watch functions
- 2 Angled display for easy consumer interaction with watch
- 3 Detachable sensor for easy daily removal
- 4 Common stand for watches with interchangeable power cradles is adaptable to displays with inductive charging bases and also micro USB power interfaces
- 5 Powers and secures Samsung Gear watches, LG G Watch R, Sony SmartWatch 2 and Sony SmartWatch 3

Samsung Gear 2 Neo
